SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier
- Product name: Epoxy Curing Agent ECA 106
- Product form: Mixture
- Product code: ECA 106

1.2. Relevant identified uses of the substance or mixture and uses advised against
- Use of the substance/mixture:
  - Industrial use as a monomer in the manufacture of resins.
  - Industrial use as an intermediate in chemical synthesis or process.
  - Industrial use as a hardener for epoxy resins.
  - Manufacture of substance (liquid and flakes).

1.3. Details of the supplier of the safety data sheet
- Dixie Chemical Company, Inc.
  - 10601 Bay Area Blvd
  - Pasadena TX 77507
  - Phone: 281-474-3271
  - Email: msds@dixiechemical.com

1.4. Emergency telephone number
- Emergency number: CHEMTREC® (800) 424-9300 Domestic, (703) 527-3887 International

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture
- GHS-US classification
  - Eye Dam. 1: H318
  - Resp. Sens. 1: H334
  - Skin Sens. 1: H317

2.2. Label elements
- GHS-US labelling
  - Hazard pictograms (GHS-US):
    - GHS05
    - GHS08

- Signal word (GHS-US): Danger
- Hazard statements (GHS-US):
  - H317 - May cause an allergic skin reaction
  - H318 - Causes serious eye damage
  - H334 - May cause allergy or asthma symptoms or breathing difficulties if inhaled

- Precautionary statements (GHS-US):
  - P261 - Avoid breathing vapours, dust
  - P272 - Contaminated work clothing must not be allowed out of the workplace
  - P280 - Wear eye protection, face protection, protective clothing, protective gloves
  - P284 - [In case of inadequate ventilation] wear respiratory protection
  - P302+P352 - If on skin: Wash with plenty of soap and water
  - P303+P361+P330 - IF INHALED: Remove person to fresh air and keep comfortable for breathing
  - P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
  - P310 - Immediately call a doctor, a poison center
  - P321 - Specific treatment (see first aid instructions on this label)
  - P333+P313 - If skin irritation or rash occurs: Get medical advice/attention
  - P342+P311 - If experiencing respiratory symptoms: Call a doctor, a poison center
  - P362+P364 - Take off contaminated clothing and wash it before reuse
  - P501 - Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation

2.3. Other hazards
- No additional information available

2.4. Unknown acute toxicity (GHS-US)
- No data available
SECTION 3: Composition/information on ingredients

3.1. Substance
Not applicable

3.2. Mixture

*In accordance with paragraph (i) of the OSHA Hazard Communication Standard (29 CFR §1910.1200), the specific chemical identity has been withheld as a trade secret

SECTION 4: First aid measures

4.1. Description of first aid measures

First-aid measures general: If exposed or concerned, get medical attention/advice. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before re-use. Never give anything to an unconscious person.

First-aid measures after inhalation: IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing. Get medical attention. If breathing is difficult, supply oxygen. If breathing has stopped, give artificial respiration.

First-aid measures after skin contact: IF ON SKIN (or clothing): Remove affected clothing and wash all exposed skin with water for at least 15 minutes. Get medical attention immediately.

First-aid measures after eye contact: IF IN EYES: Immediately flush with plenty of water for at least 15 minutes. Remove contact lenses if present and easy to do so. Get medical attention immediately. Continue rinsing.

First-aid measures after ingestion: IF SWALLOWED: rinse mouth thoroughly. Do not induce vomiting without advice from poison control center or medical professional. Get medical attention immediately.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms/injuries after inhalation: May cause allergy or asthma symptoms or breathing difficulties if inhaled.

Symptoms/injuries after skin contact: May cause an allergic skin reaction.

Symptoms/injuries after eye contact: Causes serious eye damage.

Symptoms/injuries after ingestion: May cause gastrointestinal irritation.

4.3. Indication of any immediate medical attention and special treatment needed

No additional information available

SECTION 5: Firefighting measures

5.1. Extinguishing media
Unsuitable extinguishing media: Do not use a heavy water stream.

5.2. Special hazards arising from the substance or mixture

Fire hazard: Must be preheated before ignition can occur.
Explosion hazard: Product is not explosive.
Reactivity: This material reacts with water or steam to form phthalic acids. This reaction is slightly exothermic.

5.3. Advice for firefighters

Firefighting instructions: Use cold water spray to cool fire-exposed containers to minimize risk of rupture. Do not dispose of fire-fighting water in the environment. Dispose of in accordance with relevant local regulations. Prevent human exposure to fire, fumes, smoke and products of combustion.

Protection during firefighting: Do not enter fire area without proper protective equipment, including respiratory protection.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

General measures: Evacuate area. Keep upwind. Ventilate area. Spill should be handled by trained clean-up crews properly equipped with respiratory equipment and full chemical protective gear (see Section 8).

6.1.1. For non-emergency personnel

Protective equipment: Wear Protective equipment as described in Section 8.
Emergency procedures: Evacuate unnecessary personnel.

6.1.2. For emergency responders

Protective equipment: For further information refer to section 8: "Exposure controls/personal protection".

---

09/14/2015 Epoxy Curing Agent ECA 106
6.2. Environmental precautions
Notify authorities if product enters sewers or public waters. Prevent entry to sewers and public waters. Avoid release to the environment.

6.3. Methods and material for containment and cleaning up
For containment: Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams.
Methods for cleaning up: Eliminate ignition sources. Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Place in a suitable container for disposal in accordance with the waste regulations (see Section 13).

6.4. Reference to other sections
See Sections 8 and 13.

SECTION 7: Handling and storage

7.1. Precautions for safe handling
Precautions for safe handling: Wear personal protective equipment. Do not handle until all safety precautions have been read and understood. Ensure good ventilation of the work station. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

7.2. Conditions for safe storage, including any incompatibilities
Storage conditions: Store in a well-ventilated place. Keep cool. Protect from sunlight. Keep away from ignition sources. Store away from incompatible materials. Protect from moisture. Store away from food.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

</tr>
</tbody>
</table>

8.2. Exposure controls
Appropriate engineering controls: Provide adequate general and local exhaust ventilation. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Use explosion-proof equipment with flammable materials. Ensure adequate ventilation, especially in confined areas.

Hand protection: Use gloves chemically resistant to this material when prolonged or repeated contact could occur. Gloves should be classified under Standard EN 374 or ASTM F1296. Suggested glove materials are: Neoprene, Nitrile/butadiene rubber, Polyethylene, Ethyl vinyl alcohol laminate, PVC or vinyl. Be aware that the chemical may penetrate the gloves. Frequent changes are advisable. Suitable gloves for this specific application can be recommended by the glove supplier.

Eye protection: Wear eye protection, including chemical splash goggles and a face shield when possibility exists for eye contact due to spraying liquid or airborne particles.

Skin and body protection: Wear long sleeves, and chemically impervious PPE/coveralls to minimize bodily exposure.

Respiratory protection: Use NIOSH-approved dust/particulate respirator. Where vapor, mist, or dust exceed PELs or other applicable OELs, use NIOSH-approved respiratory protective equipment.

**9.2 Other information**

No additional information available

**SECTION 10: Stability and reactivity**

**10.1 Reactivity**

This material reacts with water or steam to form phthalic acids. This reaction is slightly exothermic.

**10.2 Chemical stability**

Stable under normal conditions.

**10.3 Possibility of hazardous reactions**

Hazardous polymerization does not occur. Heating above 220 °C (428 °F) may result in product decomposition.

**10.4 Conditions to avoid**

Moisture. High temperatures, incompatible materials.

**10.5 Incompatible materials**

**10.6 Hazardous decomposition products**

Carbon monoxide (CO), carbon dioxide (CO₂).

**SECTION 11: Toxicological information**

**11.1 Information on toxicological effects**

Acute toxicity: Not classified

09/14/2015 Epoxy Curing Agent ECA 106

4/6
SECTION 12: Ecological information

12.1. Toxicity
Ecology - general : No information available.

12.2. Persistence and degradability

| Epoxy Curing Agent (ECA 106) | Persistence and degradability | No data available. |

12.3. Bioaccumulative potential

| Epoxy Curing Agent (ECA 106) | Bioaccumulative potential | No information available. |

12.4. Mobility in soil
No additional information available

12.5. Other adverse effects
No additional information available

SECTION 13: Disposal considerations

13.1. Waste treatment methods
Waste treatment methods : Do not discharge to public wastewater systems without permit of pollution control authorities. No discharge to surface waters is allowed without an NPDES permit.
Waste disposal recommendations : Dispose in a safe manner in accordance with local/national regulations. Do not allow the product to be released into the environment.

SECTION 14: Transport information

In accordance with DOT
Not hazardous for transport

Additional information
Other information : No supplementary information available.

Transport by sea
No additional information available

Air transport
No additional information available

SECTION 15: Regulatory information

15.1. US Federal regulations

| Epoxy Curing Agent (ECA 106) | All chemical substances in this product are listed in the EPA (Environment Protection Agency) TSCA (Toxic Substances Control Act) Inventory or are exempt |
| SARA Section 311/312 Hazard Classes | Immediate (acute) health hazard |

15.2. International regulations

All chemical substances in this product are listed on the Canadian Domestic Substances List (DSL) or Non-Domestic Substances List (NDDSL) or are exempt
All chemical substances in this product are listed on the Chinese Chemical Inventory of Existing Chemical Substances (IECSC) or are exempt
All chemical substances in this product are listed on the European EINECS Inventory or the ELINCS list or are exempt
All chemical substances in this product are listed on the Japanese Existing and New Chemical Substances Inventory (ENCS) or are exempt
All chemical substances in this product are listed on the Korean Existing Chemicals Inventory (KECI) or are exempt
All chemical substances in this product are listed on the Philippines Inventory of Chemicals and Chemical Substances (PICCS) or are exempt
All chemical substances in this product are listed on the Taiwan Chemical Substance Inventory (TSCI) or are exempt
One or more of the chemical substances in this product is not listed on the Australian Inventory of Chemical Substances (AICS)
One or more of the chemical substances in this product is not listed on the New Zealand Inventory of Chemicals (NZIoC)

15.3. US State regulations

California Proposition 65
This product does not contain any substances known to the state of California to cause cancer and/or reproductive harm.

1,2,3,6-Tetrahydrophthalic anhydride (85-43-8)
U.S. - New Jersey - Right to Know Hazardous Substance List

SECTION 16: Other information

Indication of changes : Revision 1.0 New SDS Created
Epoxy Curing Agent ECA 106
Safety Data Sheet
Prepared according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Other information : 09/14/2015
: Author: ANF.

NFPA health hazard : 2 - Intense or continued exposure could cause temporary incapacity or possible residual injury unless prompt medical attention is given.
NFPA fire hazard : 1 - Must be preheated before ignition can occur.
NFPA reactivity : 1 - Normally stable, but can become unstable at elevated temperatures and pressures or may react with water with some release of energy, but not violently.

HMS III Rating
Health : 2
Flammability : 1
Physical : 1
Personal Protection :
