DE VINE CHEMICALS LTD

SAFETY DATA SHEET

DeCAL 1803

This safety data sheet has been supplied in accordance with the requirements of Article 31 of Regulation EC No 1907/2006 (the REACH regulation) and the information contained herein is displayed in the order prescribed in Annex II to that regulation, as amended 2010. Its purpose is to facilitate the carrying out of a risk assessment. Employers are reminded of their duty to carry out such an assessment and subsequently to provide an appropriate working environment, to make available to those who are required to use this product all necessary personal protective equipment and to ensure that such equipment is used.

Date of Issue: 20th August 2015
Version No: 02
Replaces version No. 01 dated 24th September 2013

Additions and amendments to this SDS.
Despite the fact that this product does not meet the criteria for classification as hazardous laid down in Regulation (EC) 1272/2008 (CLP) and is therefore not subject to the labelling provision specified therein this SDS has been re-written to reflect the phasing out on 31st May 2015 of Directive 1999/45EC (CHIP) and its replacement by the CLP regulation. The only reference to the CHIP regulation is now shown in Section 16. The safety data contained in this version is essentially the same as that contained in the previous version.

SECTION 1. IDENTIFICATION OF THE MIXTURE AND THE COMPANY.

1.1 Product Identifiers.
Trade Name: DeCal 1803

1.2 Identified uses and uses advised against.
1.2.1 Identified Uses: As a thickening agent in detergents, conditioners, water-based paints, sealants and similar products.
1.2.2 Uses advised against: None of the substances contained in this product are subject to authorisation or restriction. The supplier does however advise against uses other than those identified above.

1.3 Details of supplier.
Supplier: Devine Chemicals Ltd.,
Prospect Business Park,
Londgate,
Consett,
Co. Durham,
DH8 7FW.

1.4 Emergency telephone number: 07810-810608 from 0800 to 2000 hours every day.

2. HAZARDS IDENTIFICATION.

2.1 Classification.
This product does not meet the criteria for classification as a hazardous preparation laid down in Regulation (EC) 1272/2008 (CLP).

However, as is the case with all chemical compositions, certain precautionary measures aimed at ensuring the well-being of those who will use this product and at protecting the natural environment against unnecessary pollution must be applied. Precautionary measures appropriate to the use of this product are detailed in the following pages.

Overexposure to this product may cause minor irritation of the eyes and skin.
Discharge of this product to watercourses or drainage systems may be harmful to the environment.
Areas covered by spilled product will be slippery.
SAFETY DATA SHEET

DeCAL 1803

Date of Issue: 20th August 2015  Version No: 02  Page 2 of 7

2. HAZARDS IDENTIFICATION.

2.1. Label Elements:
This product is not subject to labelling provisions specified in Regulation EC No. 1272/2008 (CLP).

3. COMPOSITION/INFORMATION ON INGREDIENTS.

The ingredients present in this product do not meet the criteria for disclosure in this section nor are they required to be registered in accordance with Article 5 of the REACH regulation.

4. FIRST AID MEASURES

4.1. Description of first aid measures.

General Information: No action shall be taken which involves any personal risk or without suitable training. If it is suspected that vapour is still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

Inhalation: In all cases of doubt or where symptoms persist seek medical attention. Never give anything by mouth to an unconscious person.

The only volatile component of this product is water. Inhalation of vapours will not cause harmful or troublesome symptoms. The need for first-aid measures to be applied is extremely unlikely.

Ingestion: This product does not present any acute toxicity. In the event of ingestion DO NOT INDUCE VOMITING. Wash out mouth with water. Allow to rest and keep warm. Obtain medical attention immediately.

Skin Contact: Prolonged or repeated contact may cause slight irritation. Immediately flush the affected area with water. Wash with soap and water. DO NOT WASH WITH SOLVENTS OR THINNERS. Remove grossly contaminated clothing, including shoes, and launder thoroughly before re-use.

Eye Contact: May cause slight irritation. Quickly but gently blot or wipe chemical from the face. Check for and remove any contact lenses. Immediately flush eyes with lukewarm gently flowing water for 5 minutes while holding the eyelids open. If feeling of irritation persists obtain medical advice.

4.2. Most important symptoms and effects, both acute and delayed.

Acute: Single exposure to vapours or mist is not likely to be hazardous. Contact with eyes may cause slight irritation. Prolonged or repeated contact with skin may cause mild irritation in some individuals. Not expected to cause significant immediate hazard if spilled.

Delayed effects: None known.

4.3. Indication of any immediate attention and special treatment needed.

Note to physician: Treat symptomatically.

5. FIRE FIGHTING MEASURES.

Extinguishing media:

Suitable: Foam, dry chemical powder.

Unsuitable: Water jet.

Special exposure hazards:

None.

Special protective equipment for fire-fighters:

Chemical protection suit, suitable gloves and boots and self-contained breathing apparatus.
6. ACCIDENTAL RELEASE/SPILLAGE MEASURES

6.1 Personal Precaution Following Spill.
6.1.4 Non-emergency personnel:
Wear recommended personal protective equipment and avoid all forms of contact.

6.1.2 Emergency responders:
The area affected by a spillage will be slippery. Evacuate all non-essential personnel from the vicinity of the spill. Remove all sources of ignition. If indoors ventilate the affected areas. Mark out the affected area with signs and prevent unauthorised personnel from approaching the area. If safe to do so turn leaking packages hose-side up in order to minimise leakage. Do not touch the spilled material.

6.2 Precautions to Protect Environment:
Use non-combustible absorbent material such as sawd or vermiculite type chy as a dam to prevent spilled material entering drains and watercourses. If spilled material enters drains or watercourses inform the emergency services and the local water authority.

6.3 Spill Clean-up Methods.
6.3.1 Containment:
Contain the spillage by use of the absorbent material referred to in Section 6.2.

6.3.2 Clean up:
Using the same material that was used to contain the spillage absorb all of the spilled material. Transfer the contaminated absorbent material to clearly marked, sealed containers. Retain for disposal as recommended in Section 13.

6.3.3 Any other information:
Scrub the affected area with detergent and water. If possible, collect wash water for disposal as recommended in Section 13. If not possible to collect wash water, flush washings to drain with copious amounts of water.

None.

6.4 Reference to other sections:
See Section 8 for information on selecting personal protective equipment and Section 13 for details of recommended disposal methods.

7. HANDLING AND STORAGE

7.1.4 Safe handling techniques:
DO NOT EAT, DRINK OR SMOKE while using this product. Handle only in a manner that minimizes the risk of damage to packages and of spillage. Use with adequate ventilation. Avoid contact with eyes, skin and clothing.

7.1.2 Occupational Hygiene:
Wash hands thoroughly after working with this substance. Contaminated clothing, including footwear, must be thoroughly laundered/cleaned before re-use.

7.2 Safe Storage:
Store only in sealed, clearly marked packages away from strong oxidising agents in an area which is dry, well ventilated and in which the temperature can be maintained between 5°C and 40°C.

None requiring special note.

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

8.1 Control parameters.
None of the substances contained in this product have been assigned an EU Workplace Exposure Limit.

However overexposure when handling the product may cause development of the symptoms mentioned in Section 4.
SAFETY DATA SHEET

DeCAL 1803

Date of Issue: 20th August 2015
Version No: 02
Page 4 of 7

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION (continued)

8.1 Exposure controls.
8.2.1 Appropriate engineering controls: Good general ventilation ought to be adequate but may need to be supplemented by local exhaust ventilation if use within a confined space is necessary.
8.2.2 Personal protection.
8.2.2.1 Eye/face protection: Suitable chemical-resistant safety goggles should be worn. Consult a supplier of such equipment to identify the most appropriate type. Ensure that an eye-bath is available at the point of use.
8.2.2.2 Hand protection: Chemical resistant gloves of type EN 374 should be worn. Always abide by the instructions and information provided by the glove supplier on use, storage, maintenance and replacement.
8.2.2.3 Respiratory protection: Use impervious overalls and boots. Consult a supplier of such equipment to identify most appropriate type. Always abide by the instructions and information provided by the supplier on use, storage, maintenance and replacement.
8.2.2.4 Body protection: Under intended and anticipated conditions of use respiratory protection will not be necessary. However, if the WEL shown above is likely to be exceeded as a result of for example working in high temperature conditions or if spraying is involved a half or full face mask with particle filter type P3 (European Standard EN143) should be used.
8.2.2.5 Environmental exposure controls: Store only in sealed packages and take all steps necessary to minimise the risk of this product entering drains or other water courses.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES.

Appearance: Milky white, viscous liquid.
Odour: Very slight acrylic.
Odour threshold: No data available.
pH (Spill): 3 to 5
Melting point: Not applicable. The product is a liquid.
Initial Boiling point: Approx. 100°C
Flash point: None.
Evaporation rate: Similar to that of water.
Flammability: The product does not burn or support combustion.
Upper/Lower Flammability limits: No data available.
Vapour pressure: 50mm Hg at 25°C
Vapour density: No data available.
Relative density: 1.0 at 20°C
Solubility: Soluble in water at pH 7. Only slightly soluble in n-Octanol.
Partition coefficient: n-Octanol/Water: Cannot be determined due to the surface active properties of the product.
Auto ignition temperature: No data available.
Decomposition temperature: No data available.
Viscosity: No data available.
Explosive properties: This product does not have explosive properties.
Oxidising properties: This product does not have oxidising properties.

SECTION 10. STABILITY AND REACTIVITY

10.1 Reactivity: This product does not react easily with other chemicals and is not expected to do so in anticipated conditions of storage and use. It will however react with strong oxidising agents.
10.2 Chemical Stability: This product is stable under intended conditions of storage and use.
10.3 Possibility of Hazardous Reactions: The possibility of hazardous reactions is extremely low.
10.4 Conditions to avoid: Temperatures outside the range 5°C to 40°C .
10.5 Incompatible Materials: Strong oxidising agents
10.6 Hazardous decomposition products: None known.
SAFETY DATA SHEET
DeCAL 1803

Date of Issue: 26th August 2015

SECTION 11. TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects.

a) Acute Toxicity Data: No product specific data available but the 96h LD₅₀ (rat) for both oral and dermal routes of exposure is believed to be >2000 mg/kg.
b) Skin corrosion/irritation: In-use experience has shown that prolonged or repeated exposure of skin tissue to this product can lead to very slight irritation.
c) Serious eye damage/irritation: In-use experience has shown that exposure of the eyes and related tissue to this product can lead to slight irritation.
d) Respiratory or skin sensitisation: This product does not contain any substances that meet the criteria laid down in EU legislation for classification as a respiratory or skin sensitizer.

j) Germ cell mutagenicity: This product does not contain any substances that meet the criteria laid down in EU legislation for classification as mutagenic.
f) Carcinogenicity: This product does not contain any substances that meet the criteria laid down in EU legislation for classification as carcinogenic.
g) Reproductive toxicity: This product does not contain any substances that meet the criteria laid down in EU legislation for classification as toxic to reproduction.
b) STOT single exposure: This product does not contain any substances that are known to target any specific organ on single exposure exposure.
i) STOT repeated exposure: This product does not contain any substances that are known to target any specific organ on repeated exposure.
j) Aspiration hazard: This product does not contain any substances that meet the criteria laid down in EU legislation for classification as an aspiration hazard.

SECTION 12. ECOLOGICAL INFORMATION.

12.1 Toxicity No product specific data available but by analogy to similar products the 96 hour LC₅₀ (fish) is believed to be > 100 ppm.
12.2 Persistence and degradability The main constituent of this product is only poorly biodegradable. This product will therefore persist for some time in the natural environment but is not considered to be very persistent.
12.3 Bioaccumulative potential This product is not expected to bio-accumulate.
12.4 Mobility in soil This product miscible with water and is therefore expected to exhibit a high degree of mobility within soil.
12.5 Results of PBT assessment Assessment not carried out but this product is believed not to be a PBT or a vPvB.
12.6 Other adverse effects None known.

13. DISPOSAL CONSIDERATIONS.

Waste Disposal Method: Empty packages and waste from this product are subject to disposal in accordance with the Hazardous Waste (England and Wales) Regulations 2005 (SI 2005/294) or other national equivalent.
SAFETY DATA SHEET
DeCAL 1803

Date of Issue: 20th August 2015
Version No: 02
Page 6 of 7

14. TRANSPORT INFORMATION.

This product does not meet the criteria for classification as dangerous for transport by road (ADR), rail (RID), inland waterway (ADN), sea (IMDG) or air (ICAO/IATA).

Subsections 14.1 to 14.7 do not apply.

However as with all chemical-based products it must, when being transported, be handled in a manner that minimises the risk of damage to and leakage from the packages.

15. REGULATORY INFORMATION.

15.1 Safety, health and environmental legislation specific for this product.

This product is subject to the provisions of:

and of individual Member State national legislation which invoke any or all of the following:

15.2 Chemical safety assessment.

No chemical safety assessment has been carried out.

SECTION 16. OTHER INFORMATION.

1. Additions and amendments to this SDS.

Despite the fact that this product does not meet the criteria for classification as hazardous laid down in Regulation (EC) 1272/2008 (CLP) it is therefore not subject to the labelling provisions specified therein this SDS has been re-written to reflect the changes put on 31st May 2015 of Directive 99/45/EC (CHIP) and its replacement by the CLP regulation. The only reference to the CHIP regulation is now shown in Section 16. The safety data contained in this version is essentially the same as that contained in the previous version.

2. Evaluation Method of Information Used in Classification.

Analogy with "substantially similar mixtures" and calculation.

3. Text of hazard statements referred to, but not shown, elsewhere in this SDS.

Not applicable.

This product does not meet the criteria for classification as dangerous laid down in Directive 99/45/EC (CHIP) and is therefore not subject to the labelling provisions specified therein.

DeCAL 1803

Date of Issue: 20th August 2015
Version No: 02
Page 7 of 7

SECTION 16. OTHER INFORMATION (continued).

5. Abbreviations and acronyms.

ADR: European Agreement Concerning the International Carriage of Dangerous Goods by Road

ADN: European Agreement Concerning the International Carriage of Dangerous Goods by Inland Waterway

CAS: Chemical Abstracts Service (of the American Chemical Society)

EC: The half maximal concentration which induces a response halfway between the baseline and maximum within the specified time.

ENEC: European Index of Existing Chemical Substances

ICAO/IATA: Regulations Concerning the Transport of Dangerous Goods by Air.

IMDG: Regulations Concerning the Transport of Dangerous Goods by Sea.

LD50: Lethal dose for 50% of test species.

PBT: Persistent, bioaccumulative, toxic.

RID: European Agreement Concerning the International Carriage of Dangerous Goods by Rail.

STOT: Specific target organ toxicity.

vPvB: Very persistent and very bioaccumulative.

WEL: Workplace Exposure Limit.

6. Sources of key data.

The Chemical (Hazard Information for Packaging and Supply) Regulations and associated documents.

The Dangerous Preparations Regulations.

The European Agreement Concerning the Carriage of Dangerous Goods by Road (ADR).

The International Maritime Dangerous Goods Code.

The International Air Transport Association Dangerous Goods Regulations.

7. Training advice.

All personnel who are required to work with this product must receive training covering the appropriate use and handling techniques and the use of the recommended personal protective equipment.

8. Further information.

8.1. Recommended restrictions on use (ie, non-statutory recommendations by supplier).

This product should not be used for any purpose other than those mentioned in Section 1.2. As specific conditions of use of this product are beyond the control of the supplier, the user is responsible for adapting the information contained in this SDS to local regulations and circumstances.

8.2 This product does not contain any substance which:

is a persistent organic pollutant, as defined in EC regulation No. 850/2004,

is an ozone depleter, as defined in EC regulation No. 2037/2000,

is subject to the provisions of Regulations (EC) No. 689/2008 concerning the import and export of dangerous chemicals, or

is a named Seveso substance nor is it a Seveso category.

DISCLAIMER

The information contained in this SDS relates only to the material specified and may not be valid for such material used in combination with any other materials or in any process. Such information is, to the best of the Company's knowledge and belief, accurate and reliable as of the date of issue. However, no warranty, guarantee or representation is made as to its accuracy, reliability or completeness. It is the responsibility of the user to satisfy himself as to the suitability of such information for his own particular use.
