1 Identification of the Substances/Preparation and of the Company/Undertaking

- **Product identifier**
- **Product name:** PX 4005
- **Relevant identified uses of the substance or mixture and uses advised against**
  Dispersing agent. / Detergent. Lubricants and additives.

- **Details of the supplier of the safety data sheet**
- **Manufacturer/Supplier:**
  Dorf Ketal Chemicals LLC
  11200 Westheimer Road
  Suite 400
  Houston, Texas 77042
  Phone: +1 713 343 2377
  Fax: +1 832 649 7615
  Email: ehss@dorfketal.com
- **Emergency telephone number:**
  For Chemical Emergency ONLY (spill, leak, fire, exposure or accident) call Chemtrec at +1 (703) 527 3887 or Chemtrec India at 000-800-100-7141. DORF KETAL Emergency Control Room +91 22–65271001.

2 Hazard(s) identification

- **Classification of the substance or mixture**
  The product is not classified according to the Globally Harmonized System (GHS).
- **OSHA/HCS status**
  This material is considered non hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

- **Label elements**
  - **GHS label elements** Not Applicable
  - **Hazard pictograms** Not Applicable
  - **Signal word** Not Applicable
  - **Hazard statements** Not Applicable
- **Classification system:**
  - **NFPA ratings (scale 0 - 4)**
    - Health = 0
    - Fire = 1
    - Reactivity = 0
  - **HMIS-ratings (scale 0 - 4)**
    - HEALTH
      - Health = 0
    - FIRE
      - Fire = 1
    - REACTIVITY
      - Reactivity = 0
- **Other hazards** No information available.

(Contd. on page 2)
Product name: PX 4005

3 Composition/information on ingredients

- Chemical characterization: Mixture
- Description:
  There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.
- Dangerous components: Not Applicable

4 First-aid measures

- Description of first aid measures
- Inhalation: Remove source of irritation. If symptoms persist seek medical attention
- Skin Contact:
  Immediately rinse with water.
  If skin irritation continues, consult a doctor.
- Eye Contact:
  Check for and remove any contact lenses.
  Rinse opened eye for several minutes under running water. Then consult a doctor.
- Ingestion:
  Rinse out mouth and then drink plenty of water.
  Do not induce vomiting.
  If symptoms occur seek medical attention.
- Most important symptoms and effects, both acute and delayed: No further relevant information available.
- Indication of any immediate medical attention and special treatment needed
  Show this safety data sheet to the doctor in attendance. Treat symptomatically.

5 Fire-fighting measures

- Extinguishing media: In case of fire use the following suitable extinguishing agent.
- Suitable extinguishing agents: Use fire fighting measures that suit the environment.
- Special hazards arising from the substance or mixture: No further relevant information available.
- Advice for firefighters
- Protective equipment:
  Wear fully protective suit.
  Wear self-contained respiratory protective device.
6 Accidental release measures

- **Personal precautions, protective equipment and emergency procedures**
  - Use respiratory protective device against the effects of fumes/dust/aerosol.
  - Wear protective clothing.
  - Wear protective equipment. Keep unprotected persons away.
  - Keep away from ignition sources
  - Ensure adequate ventilation

- **Environmental precautions:** Do not allow product to reach sewage system or any water course.

- **Methods and material for containment and cleaning up:**
  - Stop leak if without risk.
  - Move containers from spill area.
  - Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).

7 Handling and storage

- **Precautions for safe handling**
  - Put on appropriate personal protective equipment.
  - Do not ingest.
  - Avoid contact with eyes, skin and clothing.
  - Avoid breathing vapour or mist.
  - Ensure good ventilation/exhaustion at the workplace.

- **Information about protection against explosions and fires:** No special measures required.

- **Conditions for safe storage, including any incompatibilities**
  - Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry and well-ventilated area, away from incompatible materials and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.

- **Specific end use(s)** No further relevant information available.

8 Exposure controls/personal protection

- **Control parameters**

- **Components with limit values that require monitoring at the workplace:** Not Established.

- **Exposure controls**

- **Appropriate engineering controls:**
  - If there are no applicable exposure limit requirement or guidelines, general ventilation should be sufficient for most operations.
Product name: PX 4005

- **Personal protective equipment:**
- **General protective and hygienic measures:**
  - The usual precautionary measures for handling chemicals should be followed.
  - Keep away from foodstuffs, beverages and feed.
  - Wash hands before breaks and at the end of work.
  - Do not inhale gases / fumes / aerosols.
  - Avoid contact with the eyes and skin.
- **Breathing equipment:**
  - Where there is potential for airborne exposures, wear NIOSH approved respiratory protection.
- **Protection of hands:**
  - The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.
  - Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.
  - Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation
- **Material of gloves**
  - Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
- **Penetration time of glove material**
  - The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.
- **Eye protection:**
  - Goggles recommended during refilling.
- **Body protection:**
  - Protective work clothing

9 Physical and chemical properties

- **Information on basic physical and chemical properties**
  - **General Information**
    - **Appearance:**
      - Form: Viscous liquid
      - Color: Brown
    - **Odor:** Mild
    - **Odour threshold:** No data available.
  - **pH-value:** No data available
  - **Melting point/Freezing Point:** No data available
  - **Boiling point/Boiling range:** No data available
  - **Flash point:** 190 °C (374 °F) (Closed cup)
  - **Flammability (solid, gaseous):** Not applicable.
  - **Decomposition temperature:** No data available.
  - **Auto ignition temperature**
    - Product is not selfigniting.
Product name: PX 4005

- Explosion limits:
  - Lower: No data available.
  - Upper: No data available
- Oxidizing properties: No data available.

- Vapor pressure: No data available.
- Relative density at 15 °C (59 °F): 0.91-0.95 g/cm³ (7.594-7.928 lbs/gal)
- Vapor density: No data available.
- Evaporation rate: No data available.
- Solubility (water): Partly soluble.
- Partition coefficient (n-octanol/water): No data available.
- Viscosity:
  - Dynamic: No data available.
  - Kinematic at 40 °C (104 °F): 305 cSt

10 Stability and reactivity

- Reactivity: Under normal conditions of storage and use, hazardous reactions will not occur.
- Chemical stability: The product is stable under storage at normal ambient temperature.
- Possibility of hazardous reactions: No dangerous reactions known.
- Conditions to avoid: No further relevant information available.
- Incompatible materials:
  Reactive or incompatible with the following materials:
  - Oxidizing material
- Hazardous decomposition products:
  Under normal conditions of storage and use, hazardous decomposition products should not be produced

11 Toxicological information

- Information on toxicological effects
  - Acute toxicity:
    - LD/LC50 values that are relevant for classification: No relevant information available.
    - Primary irritant effect:
      - on the skin: No irritating effect.
      - on the eye: No irritating effect.
  - Respiratory/Skin sensitization: No sensitizing effects known.
  - Germ cell mutagenicity: No known significant effects or critical hazards.
  - Carcinogenicity: No known significant effects or critical hazards.
Product name: PX 4005

- **Reproductive toxicity**: No known significant effects or critical hazards.
- **Carcinogenic categories**
  - **IARC (International Agency for Research on Cancer)**
    None of the ingredients are listed.
  - **NTP (National Toxicology Program)**
    None of the ingredients are listed.
  - **OSHA-Ca (Occupational Safety & Health Administration)**
    None of the ingredients are listed.
  - **Single dose toxicity**: No known significant effects or critical hazard.
  - **Repeated Dose toxicity**: No known significant effects or critical hazard.
  - **Aspiration hazard**: Product is not classified for aspiration hazard.
  - **Other relevant information**: No data available

12 Ecological information

- **Toxicity**
  - **Aquatic toxicity**: No further relevant information available.
  - **Persistence and degradability**: No further relevant information available.
  - **Bioaccumulative potential**: No further relevant information available.
  - **Mobility in soil**: No further relevant information available.
  - **Results of PBT and vPvB assessment**: Not applicable.
  - **Other adverse effects**: No further relevant information available.

13 Disposal Information

- **Waste treatment methods**
  The generation of waste should be avoided or minimized wherever possible. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

- **Recommendation**: Smaller quantities can be disposed of with household waste. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

(Contd. on page 7)
**Product name:** PX 4005

- **Uncleaned packagings:** 
- **Recommendation:** Disposal must be made according to official regulations.

### 14 Transport information

### 15 Regulatory information

- **Safety, health and environmental regulations/legislation specific for the substance or mixture**
  - **Section 355 (extremely hazardous substances):** None of the ingredients are listed.
  - **Section 313 (Specific toxic chemical listings):** None of the ingredients is listed.
  - **TSCA (Toxic Substances Control Act):** All ingredients are listed.
  - **Proposition 65**
    - **Chemicals known to cause cancer:** None of the ingredients is listed.

(Contd. on page 8)
Product name: PX 4005

- **Chemicals known to cause reproductive toxicity for females:**
  None of the ingredients are listed.

- **Chemicals known to cause reproductive toxicity for males:**
  None of the ingredients are listed.

- **Chemicals known to cause developmental toxicity:**
  None of the ingredients are listed.

- **Carcinogenic categories**
  - EPA (Environmental Protection Agency)
    None of the ingredients are listed.
  - TLV (Threshold Limit Value established by ACGIH)
    None of the ingredients are listed.
  - NIOSH-Ca (National Institute for Occupational Safety and Health)
    None of the ingredients are listed.

- **Chemical safety assessment:** A Chemical Safety Assessment has not been carried out.

### 16 Other information

- File name: PX 4005 SDS US en AUG-06-2014
- Superseded SDS date: APR-16-2013
- Change History: Classification, component information & SDS format updated.

- **Abbreviations and acronyms:**
  - ADR: Accord européen sur le transport des marchandises dangereuses par Route (European Agreement concerning the International Carriage of Dangerous Goods by Road)
  - IMDG: International Maritime Code for Dangerous Goods
  - IATA: International Air Transport Association
  - GHS: Globally Harmonized System of Classification and Labelling of Chemicals
  - EINECS: European Inventory of Existing Commercial Chemical Substances
  - ELINCS: European List of Notified Chemical Substances
  - CAS: Chemical Abstracts Service (division of the American Chemical Society)
  - DNEL: Derived No-Effect Level (REACH)
  - PNEC: Predicted No-Effect Concentration (REACH)
  - LC50: Lethal concentration, 50 percent
  - LD50: Lethal dose, 50 percent
  - APF = Assigned protection factor
  - PBT: Persistent, Bioaccumulative and Toxic
  - vPvB: very Persistent and very Bioaccumulative
  - IOELV: Indicative Occupational Exposure Limit Values

- **Disclaimer:**
  The data and recommendations presented in this data sheet concerning the use of our product and the materials contain there in are believed to be accurate and are based on information which is considered reliable as of the date hereof. However, the customer should determine the suitability of much material for his purpose before adopting them on a commercial scale. Since the use our product by others is beyond our control, no guarantee, express or implied, is made and no responsibility assumed for the use of this material or the results to be obtained.
there from. Information on this document is furnished for the purpose of compliance with Government Health and Safety Regulations and shall not be used for any other purposes. Moreover, the recommendations contained in this Safety Data Sheet are not to be constructed as a license to operate under, or a recommendation to infringe, any existing patents, nor should they be confused with state, municipal or insurance requirements, or with national safety codes.
