DESCRIPTION

PX™-3239 metal deactivator is a liquid, oil-soluble tolutriazole derivative that is effective in a wide variety of industrial lubricants.

Performance Benefits:
- High activity at low concentrations
- High performance in hydrotreated base stocks
- Synergistic performance with antioxidants
- Low volatility
- Contains no diluents

TREATMENT RATES

PX™-3239 is designed to be used with other components to produce fully formulated lubricants. Typical treatment rates for industrial lubricants range from 0.02 to 0.05 percent by weight.
