Huntsman Jeffsol Propylene Carbonate is a clear solvent that is classified as an exempt compound by the South Coast Air Quality Management District (SCAQMD) for the purposes of calculating VOCs. Jeffsol Propylene Carbonate can be considered as a reactive diluent when used to reduce the viscosity of isocyanates or polyurethane prepolymers in 2 component polyurea systems; Propylene Carbonate will react with amines with active hydrogens to form urethane linkages. Supplied as a low viscosity, clear liquid. 1.6 cSt at 43.3C. Specific Gravity is 1.2 g/m. Flash Point is 135C. Color: 40 APHA

While Jeffsol Propylene Carbonate is a good product, it is Tri-iso’s opinion that S.A.F.E. Chemicals Ltd. Propylene Carbonate is a better option because it represents a better value. S.A.F.E Chemicals Ltd. Propylene Carbonate offers the same level of performance as Jeffsol Propylene Carbonate.

Jeffsol is a registered trademark of the Huntsman Corporation. Tri-iso does not distribute Jeffsol Propylene Carbonate or other Huntsman products.
