Lubrizol 3130A (LZ 3130A) is a brightstock replacement based on polyisobutylene chemistry. Lubrizol 3130A is NSF HX-1 registered for use in lubricants with incidental food contact.

While Lubrizol 3130A (LZ 3130A) is an excellent product, it is Tri-iso’s opinion that Functional V-290 often represents a better value. Functional V-290 is a bright stock replacement based on an OCP pellet, that has a 2.1% KRL shear stability. Functional V-290 is not HX-1 registered, and should not be used in lubricants with incidental food contact. Functional V-290 has minimal effect on low temperature fluidity and will not improve VI.

Lubrizol is a registered trademark of the Lubrizol Corporation. Tri-iso does not distribute Lubrizol 3130A or other Lubrizol products.
