Lubrizol 3702 (LZ 3702) is a VI improver and dispersant based on a polymethacrylate polymer. Lubrizol 3702 is recommended for producing ATF formulations and for tractor hydraulic fluids. Lubrizol 3702 is supplied as a liquid and has a 52 SSI K-O shear stability.

While Lubrizol 3702 is an excellent product, it is Tri-iso’s opinion that Functional Products PMA VI Improver and Dispersant MD-9000 represents a better value. Functional MD-9000 is also a VI improver and dispersant based on a polymethacrylate polymer. Functional MD-9000 is also supplied as a liquid and has a 52 SSI K-O shear stability. Functional MD-9000 offers high thickening efficiency and dispersancy while also providing VI improvement and demulsibility.
