Lubrizol Corporation Lubrizol 3715

Lubrizol 3715 (LZ 3715) is a VI improver and dispersant based on a polymethacrylate polymer. Lubrizol 3715 is recommended for producing ATF formulations and for tractor hydraulic fluids. Lubrizol 3715 is supplied as a liquid and has a 40 SSI K-O shear stability.

While Lubrizol 3715 is an excellent product, it is Tri-iso’s opinion that Functional Products PMA VI Improver and Dispersant MD-8000 represents a better value. Functional MD-8000 is also a VI improver and dispersant based on a polymethacrylate polymer. Functional MD-8000 is also supplied as a liquid and has a 40 SSI K-O shear stability. Functional MD-8000 offers high thickening efficiency and dispersancy while also providing VI improvement and demulsibility.
