Lubrizol 5160 R&O Package is an ashless R&O additive package. Lubrizol 5160 contains a mixture of oxidation inhibitors, ferrous and non-ferrous corrosion inhibitors and has a mild odor.

While Lubrizol 5160 is an excellent product, it is Tri-iso’s opinion that Functional Rust and Oxidation Additive Package RO-100 represents a better value. Functional RO-100 is an ashless additive package based on a mixture of antioxidants, and ferrous and non-ferrous corrosion inhibitors. Functional RO-100 is suitable for use in Group I-V base oils, including natural oils.
